CLAUDIU CREANGA

London, UK | 07860 136073 | claudiu.creanga.backup@gmail.com

ABOUT ME

The best way to know me is to visit my website www.claudiucreanga.me

I started as a frontend developer and used SASS and LESS, Foundation and Bootstrap.

I know **JavaScript** and jQuery. Lately I worked a lot with **PHP** (**OOP Magento** style). I have a good understanding of magento, backend to frontend, including the dashboard.

In my free time I like to code in **Python** and experiment with angular and node.

I'm good at SEO and Google Analytics.

I learn a new technology very fast and have a passion for coding. Hey, if it is something that I like I often spend my weekend playing with it.

Once I brought pancakes to the office and made everyone happy.
